

HEALTH is Its Own REWARD

Current estimates suggest that the average American consumes between 20 to 50 times the amount of omega-6's than omega-3's. Scientific studies indicate that this

imbalance can set the stage for a whole host of health problems.

To achieve a healthier fatty-acid ratio, doctors and nutritionists routinely urge supplementing the diet with high-quality fish oil, like Sealogix® Omega-3 Ultra-Refined Fish Oil Supplements.

Because pollution affects the water quality of our oceans and the fish that inhabit them, it is very important to choose a fish oil supplement that goes through a rigorous refining process, including molecular distillation. Similarly, it's vital to select a fish oil supplement that is tested for concentration, purity and safety by an independent third party, such as

IFOS (International Fish Oil Standards). Fortunately, Sealogix meets all of these measures. Sealogix is an ultra-refined, ultra-concentrated fish oil supplement awarded an IFOS 5-Star, the highest rating for purity and concentration. Because Sealogix is ultra-refined, you can feel confident you are ingesting one of the purest fish oils available. And, unlike other brands, Sealogix is ultra-concentrated with a minimum of 60% EPA and DHA (the two most prevalent nutrients in omega-3's), so you receive more of these health-promoting nutrients for your money.

We think you'll agree that Sealogix offers outstanding value and dependable purity to aid you in your quest for better health.

Life's Abundance®

Sealogix® Omega-3 Ultra-Refined Fish Oil Supplements

See how Sealogix measures up against competing brands!

For ease of comparison, our chart is based upon the two most prevalent nutrients in omega-3's – EPA and DHA. The prices listed in the chart below demonstrate the costs associated per 1,000 mg of omega-3's (EPA/DHA).

What makes Sealogix an exceptional value and a better choice for you and your family?

- High concentration of nutrients
- Exceptionally pure and fresh
- Fish sourced from some of world's cleanest waters
- Stringent scientific testing (IFOS 5-star rating)
- Test results posted for your review
- Very safe and effective

Brand	IFOS 5 Star	MG of EPA/DHA per cap or Tsp	Caps or Tsp per Bottle	Cost per Bottle	Cost per 1000 MG of EPA/DHA
Sealogix Omega-3 Ultra-Refined Fish Oil Supplement – 8 Ounce Liquid	Yes	2,700	47	\$56.95	\$0.45

Omega-3 (Perricone MD Nutraceuticals)	No	170	270	\$97.00	\$2.11

* Although there is no established RDA for omega-3 fatty acids (EPA and DHA), much of the medical research on the health benefits of these nutrients is conducted using amounts of 1,000 mg and up. The information for this comparison was acquired from reputable Internet web sites during August 2011. This comparison chart focuses on the cost of 1,000 mg of omega-3's (EPA and DHA) only. Although some of the products used in this comparison contain additional ingredients that may be beneficial to your health, only the cost of the long-chain omega-3's (EPA and DHA) were calculated. The Sealogix Omega-3 brands used in the above comparison are based on per bottle Autoship prices.
